Out of Sight--Out of Mind

☆ Out of Business ☆

The importance of keeping firm and product names in the public eye is recognized by all business men. It is astonishing to see how a firm or product, however meritorious, will slip into the limbo of the forgotten if not persistently advertised.

☆

The City Directory is the natural medium for keeping a business or product name in the spotlight. *Insist on being well represented in its pages.*

POLK'S
TERRE HAUTE

Directory of Householders, Occupants of Office Buildings and Other Business Places, Including a Complete Street and Avenue Guide

1961

INCLUDING WEST TERRE HAUTE

In the following list the numbered streets are arranged in numerical order fol-
lowed by the named streets in alphabetical order, the intersecting streets being
shown. The number of each building on the street is given in numerical order, and
opposite the number is placed the name of the occupants or houseowner or tenant. In
the business blocks containing offices the occupants are shown by room numbers
where practicable, in apartment homes the number denotes the number of the apart-
ment. In all streets both sides of the street are included in one list. The profession or
business of individuals or firms is given only at their respective place of business;
to find occupation of others refer to Alphabetical List of Names.
The symbol ⊕ following a householder's name indicates that we have received in-
formation during the canvass that the house is owned by some member of the family,
but as the publisher cannot and does not guarantee the correctness of the infor-
mation furnished, nor the complete absence of mistakes, no responsibility for errors
can be or is assumed, nor can the publisher furnish further information than that
shown.
The Δ preceding names denotes houses and places of business having tele-
phones.
Figures in parenthesis denote old numbers.
(The numerals that appear at right edge of columns, ahead of street descrip-
tions and some street intersections, are merely for the guidance of the publishers,
and have no other significance.)
(This section includes some listings reading "No Return." In each case the
Publishers tried diligently, by various means, to obtain the information for the
occupants but were unsuccessful. First, two personal calls were made by an enum-
erator, next, a double postal card was mailed and the telephone used when possible.)

"A Real Necessity in Every Office"—The City Directory

DIRECTORY SYMBOLS AND DESIGNATIONS

IN ADDITION to names and addresses, your City Directory contains much detailed information concerning the people of your community. In order to list this information certain symbols and designations have been developed which enable important statistics to be compressed into the smallest possible space. You will receive far greater benefits from your City Directory if you familiarize yourself with the symbols and what they stand for.

In checking credit applications, in conducting direct mail advertising programs, in planning sales campaigns, in building prospect lines, and in scores of other ways your City Directory will prove of invaluable assistance.

PUBLISHERS NOTE

INTRODUCTION
AND
GENERAL INDEX

R. L. POLK & CO., publishers of more than 1,000 city, county, state and national Directories, present to subscribers and the general public, this the 1962 edition of the Terre Haute City Directory, which also includes West Terre Haute.

A new feature in this edition is the listing of telephone numbers in the Directory of Householders.

Confidence in the growth of Terre Haute's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Terre Haute to the world.

The enviable position occupied by R. L. POLK & CO.'S Directories in the estimation of the public throughout the country, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty co-operation of the business and professional men and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Terre Haute Directory will fulfill its mission as a source of authentic information pertaining to the community.

Five Major Departments

The five major departments are arranged in the following order:

I. THE BUYERS' GUIDE constitutes the first major department, printed on goldenrod paper, and contains the advertisements of leading manufacturing, business and professional interests of Terre Haute. The advertisements are indexed under headings descriptive of the business represented. This is reference advertising at its best, and merits a survey by all buyers eager to familiarize themselves with sources of supply. In a progressive community like Terre Haute, the necessity of having this kind of informatiom immediately available, is obvious. General appreciation of this fact is evidenced by the many reference users of this City Directory service.

II. THE CLASSIFIED BUSINESS DIRECTORY is the second major department, printed on canary paper. This department lists the names of all business and professional concerns in alphabetical order under appropriate headings. This feature constitutes an invaluable and indispensable catalog of the numerous interests of the community. The Directory is the common intermediary between buyer and seller. As such, it plays an important part in the daily activities of the commercial, industrial and professional world. More buyers and sellers meet through the Classified Business Directory than through any other medium.

III. THE ALPHABETICAL LIST OF NAMES of residents and business and professional concerns, is the third major department, printed on white paper. This is the only record in existence that aims to show the name, marital status, occupation and address of each adult resident of Terre Haute and West Terre Haute, and the name, official personnel, nature and address of each firm and corporation.

IV. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the fourth major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of tenant-owned homes and the listing of telephone numbers.

V. THE NUMERICAL TELEPHONE DIRECTORY is the fifth major department, printed on blue paper.

Community Publicity

The Directory reflects the achievements and ambitions of the community, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a manufacturing site and as an educational center. To broadcast this information, the publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Terre Haute and West Terre Haute.

The Terre Haute Directory Library

Through the courtesy of the publishers of the Terre Haute City Directory, a Directory Library is maintained in the offices of the Terre Haute Chamber of Commerce, for free reference by the general public. This is one of more than 1,000 Directory Libraries installed in the chief cities of the U. S. and Canada by members of the Association of North American Directory Publishers, under whose supervision the system is operated.

The publishers appreciatively acknowledge the recognition by those progressive business and professional men who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

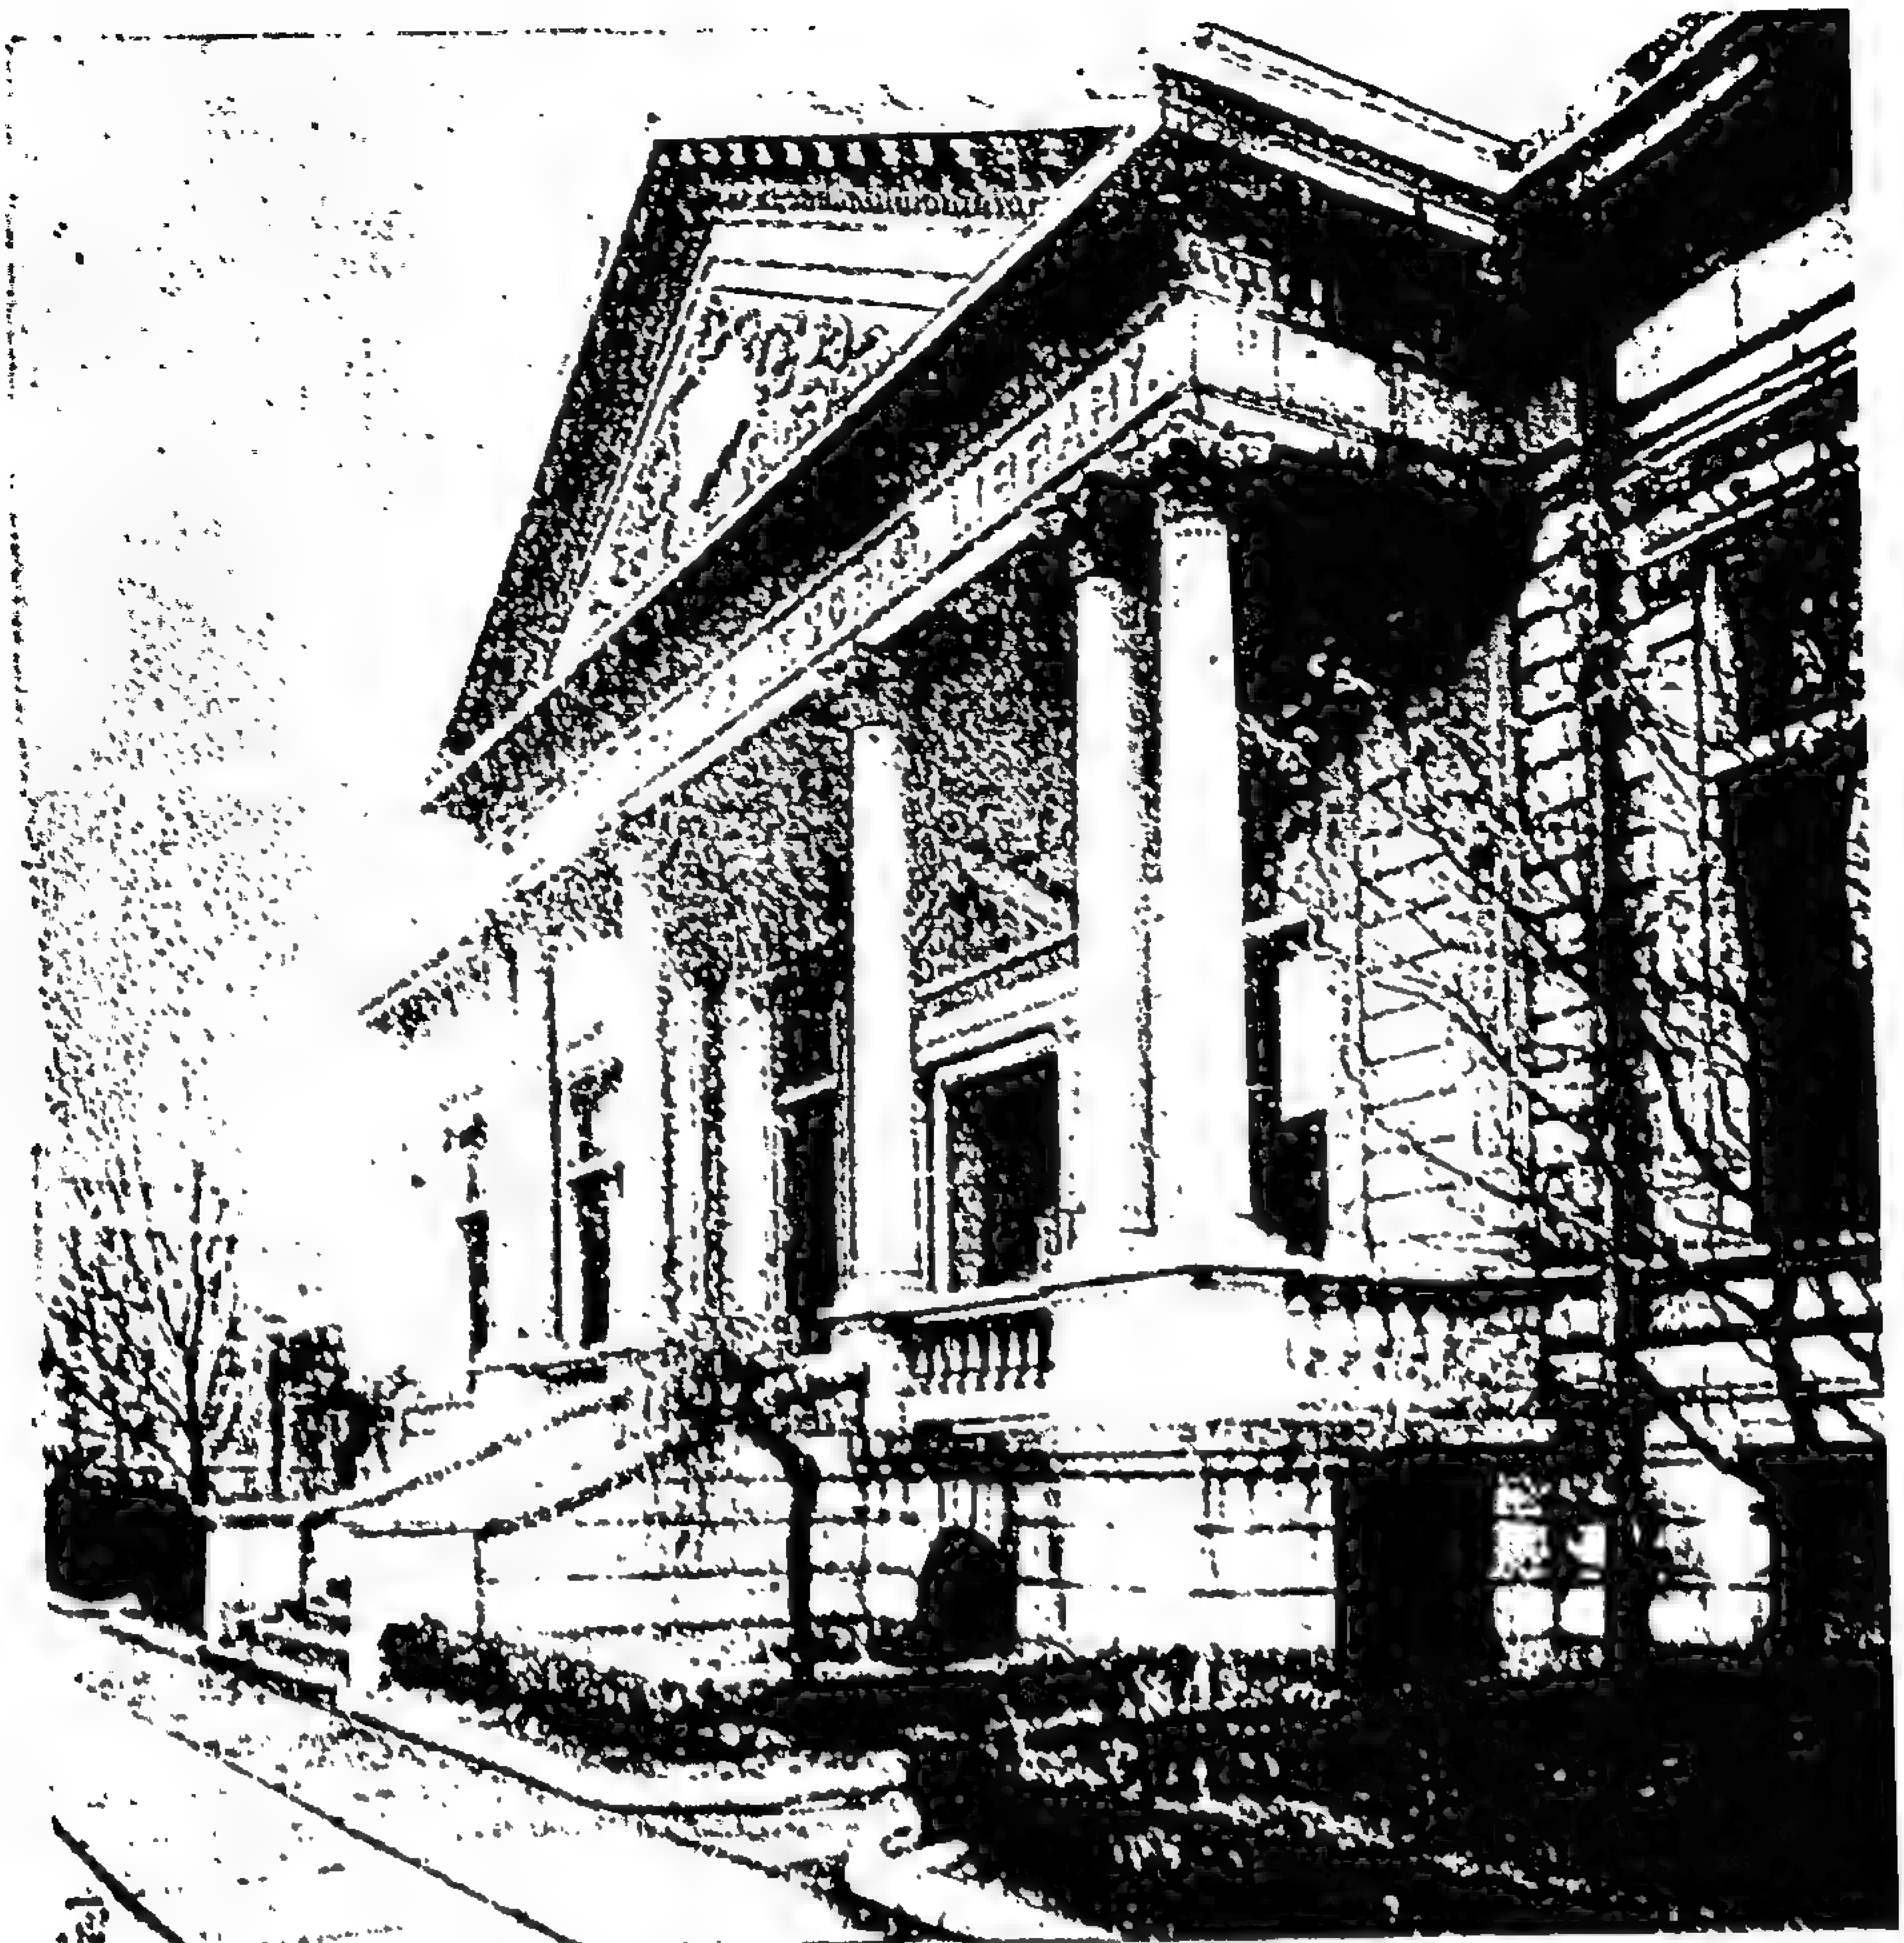
History, Location, Etc

Terre Haute was founded in 1816, the same year that Indiana was admitted to the Union. It is the county seat of Vigo County, and is located on the east bank of the Wabash River, midway between its source and the point where it empties into the Ohio. As its name implies, Terre Haute is on high ground, being much above the high-water mark. Its area is 24.73 square miles and it is on Fort Harrison Prairie, a strip of level ground from two to four miles wide east and west, and sixteen miles north and south. Its latitude is 39 degrees and 28 minutes north; longitude, 87 degrees and 25 minutes west, and it is 498 feet above sea level. In 1828 it had 579 inhabitants, which increased to 2,300 in 1840. Metropolitan population is 108,000, with a 1960 Census figure of 72,500 for Terre Haute.

The recently completed home economics building on the Indiana State campus. New dormitories, a new science building and student services building were recently completed.



The city is within a few miles of the center of population of the U. S. and within a radius of 500 miles, is in touch with more than half the population of the country. Its distance from Chicago is 178 miles; St. Louis, 168 miles; Cincinnati, 183 miles, and Louisville, 178 miles, with direct rail communication with all. Terre Haute ranks high as a railroad center, being on the main east and west lines of the New York Central and Pennsylvania, and on the Chicago, Milwaukee, St. Paul & Pacific and the Chicago & Eastern Illinois. These four systems have eleven lines branching out in every direction from the city. There is also a belt line around the city, which connects all railroads. Terre Haute Transit Co. Inc., operates the city bus lines. Ten motor bus and coach lines operate in all directions to and from the city, giving regular service. There are also 30 trucking concerns, 6 of which have home offices here, engaged in freight transportation to any point of delivery.

Known recoverable bituminous coal reserves in Indiana exceed 35,000,000,000 tons. Coal production averages approximately 15,800,000 tons annually in Indiana. Men employed in the production of this coal number approximately 3,700. In the territory contiguous to Terre Haute, which is known as the Brazil Clinton Sub-district in Indiana, approximately 6,000,000 ton of coal have been produced annually in recent years by 800 miners. Terre Haute is so situated that supplies of all types of Indiana coal may be easily procured from the various producing fields in the state.

Public Utilities, Etc.

Telephone service is furnished by the General Telephone Co. of Indiana Inc., with 42,308 automatic telephones in successful operation. The local building is used as a show plant by the manufacturers of the automatic telephone.

The American Telephone & Telegraph Co. maintains its most important Indiana office in Terre Haute to provide telephone and telegraph facilities. This is the important junction for north and south business between Chicago and points fed by Louisville, Evansville, Nashville, Atlanta, Birmingham, Jacksonville and Miami; also New York and points east to west and southwest,

including Chicago, Minneapolis, Milwaukee, St. Louis, Kansas City, Denver, Los Angeles, Houston and Dallas, and from points north and northeast to Indianapolis, Cincinnati, Columbus, Pittsburgh, Philadelphia, Washington, New York and Boston.

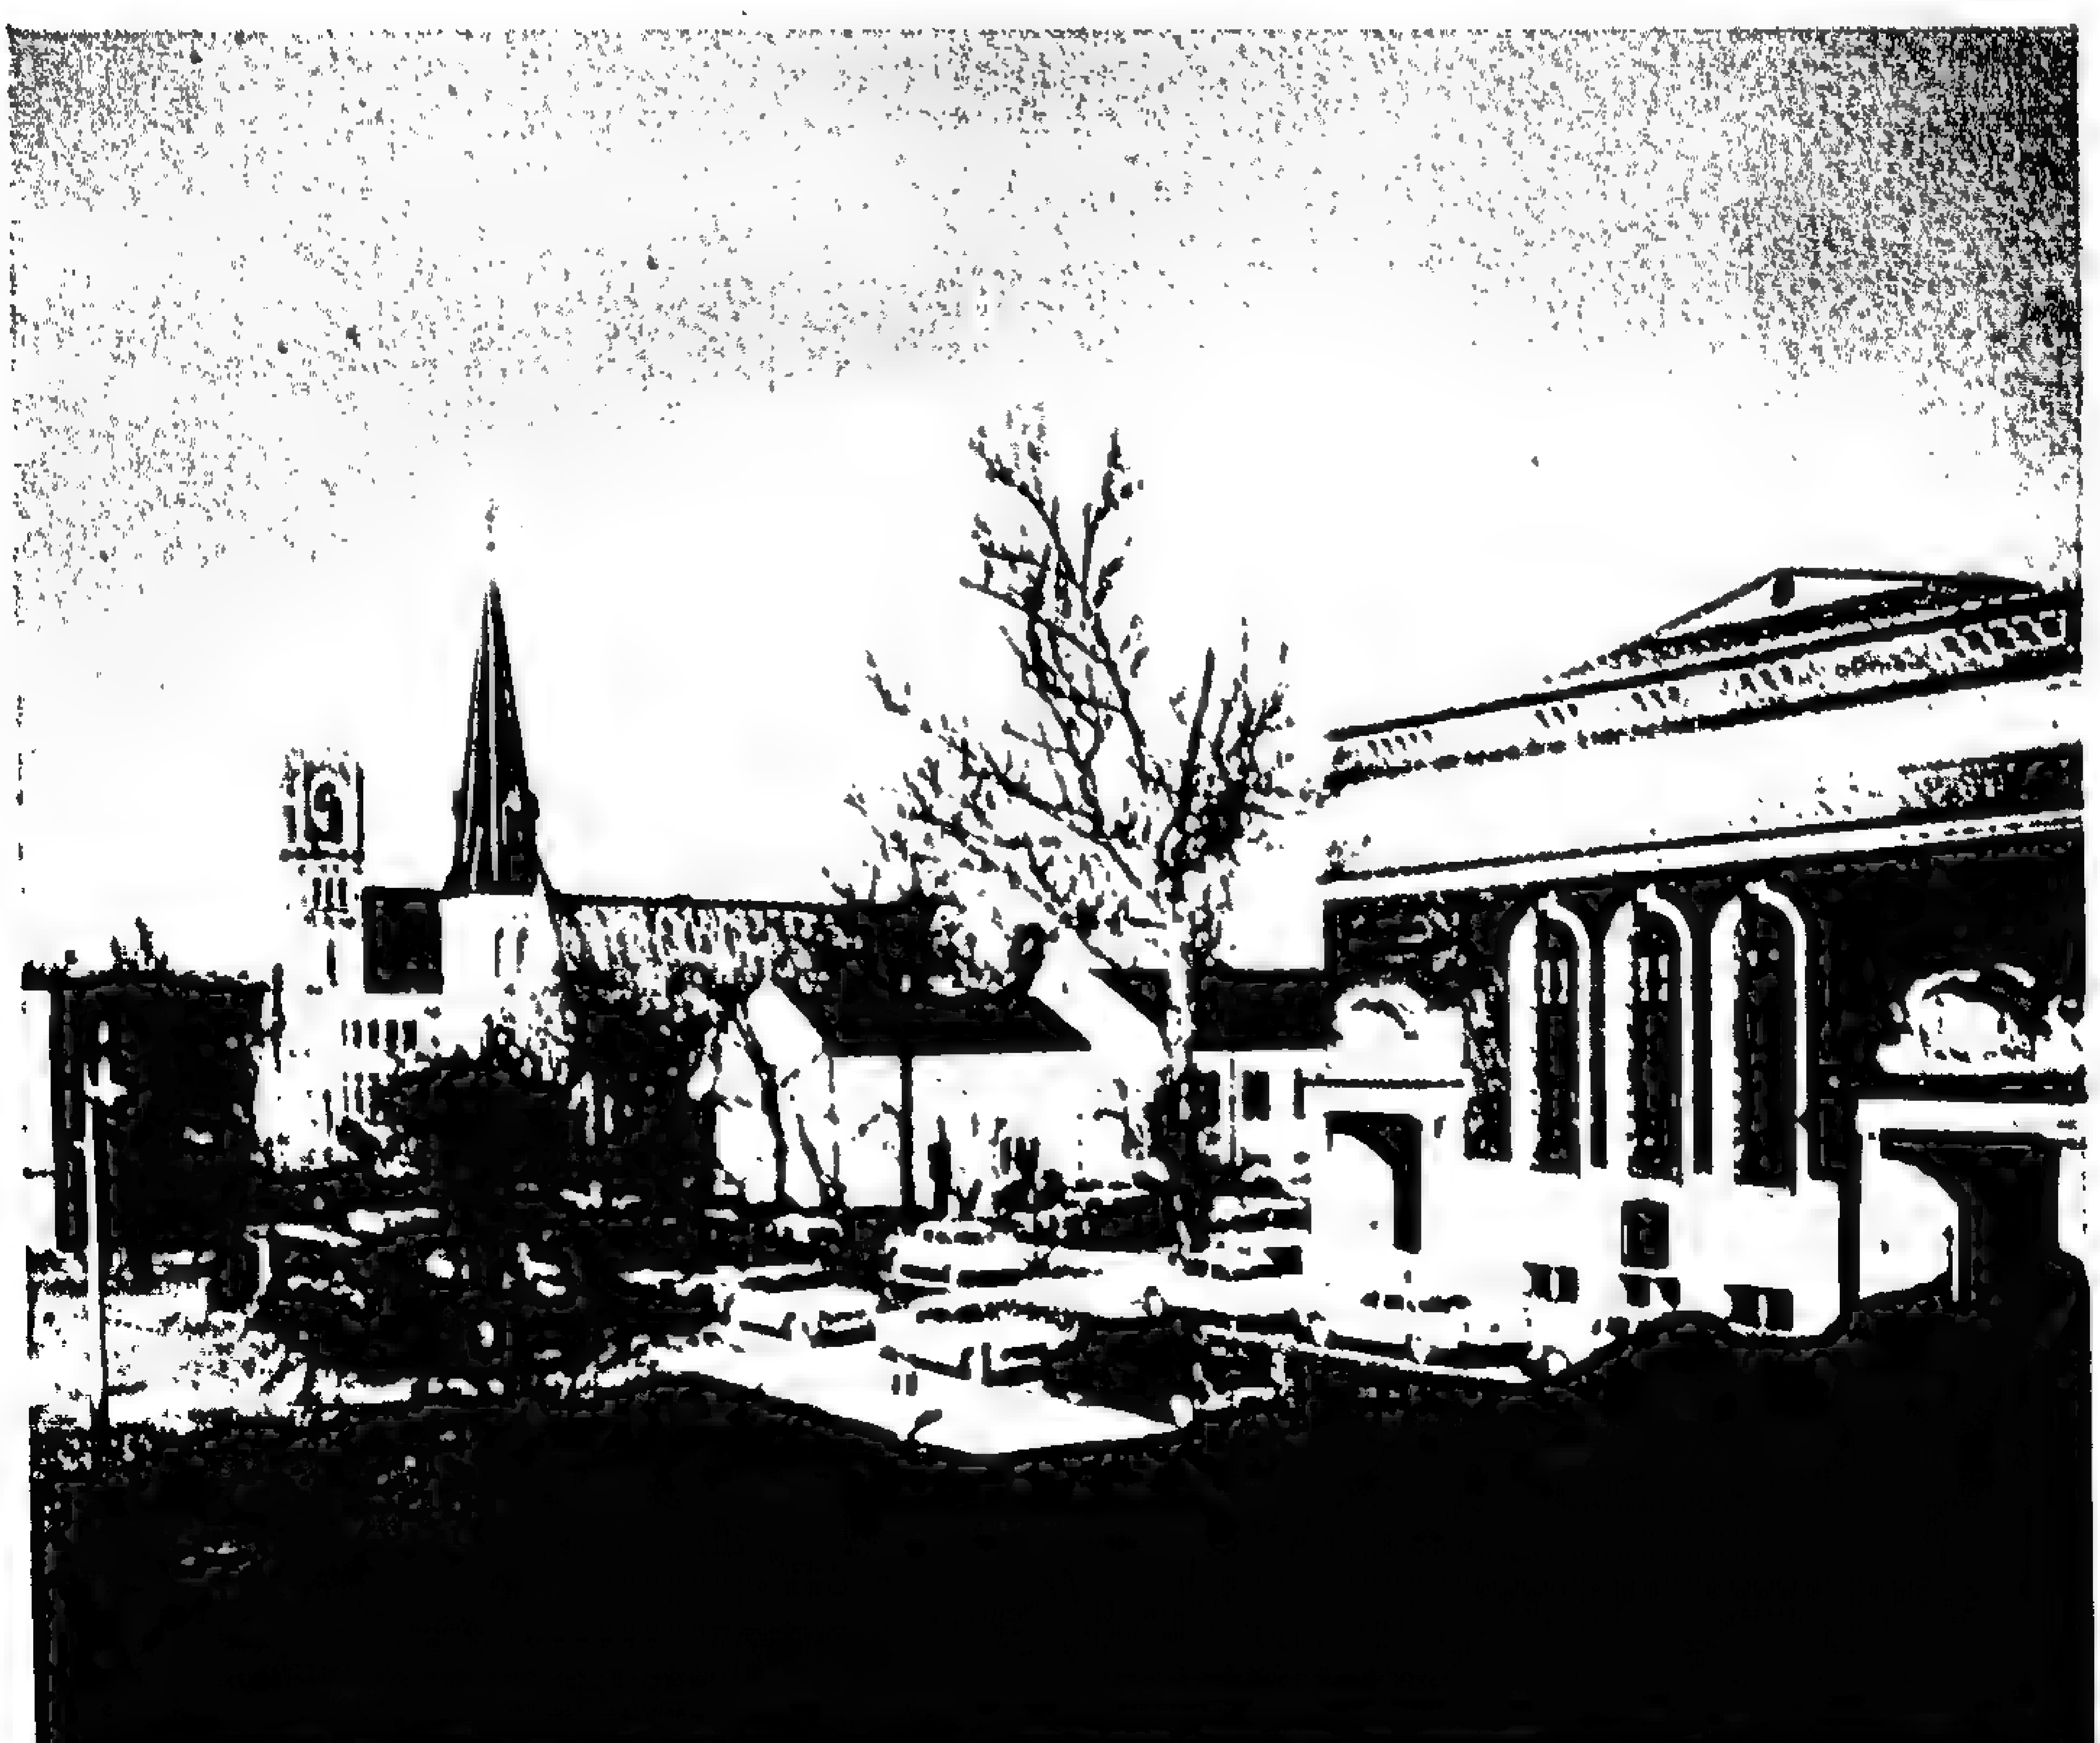
Other services furnished are telephone typewriter service to Terre Haute and surrounding towns—repeater service from four national broadcasting networks. This company maintains its own long-distance telephone exchange to make Terre Haute an important communications crossroads of the country.

The gas supply is provided by a private company. The plant has a capacity of 20,000,000 cubic feet per day of 1,000 B. T. U. natural gas. The company has 323.5 miles of gas mains and 21,630 gas meters.

Terre Haute is an important hub in the Middle Western electric power network. One of the Public Service Co.'s of Indiana's generating stations, Dresser Power Plant, located on the banks of the Wabash River, south of the city, has a capacity of 225,000 kilowatts. The Wabash River Generating Plant, located on the banks of the Wabash River, north of the city, has a capacity of 525,000 kilowatts. Modern-type rate schedules afford lighting and domestic service as low as 1.3 cents per kilowatt hour, and power service at rates down to eight mills per kilowatt hour. Electricity for the city's ample street-lighting and parks is provided over company lines.

The water supply is furnished by a private corporation, the water being taken from the Wabash River, settled, coagulated, filtered and sterilized before delivery. The company has a capacity of 30,000, gallons per 24 hours, and the average daily delivery for 1960 was 6,850,000 gallons. The company has 207.4 miles of mains, 1,740 fire hydrants and 20,800 customers. Water is furnished on the meter basis.

In addition to its excellent water works system, the city has at all points in and around it, an ample supply to be had for the pumping. Terre Haute industries have wells which pump 1,000 gallons per minute per day. The Terre Haute Paper Co. pumps over 7,000,000 gallons per day. This water is good for all purposes. Recent installation of a 2,000,000 cubic feet storage tank in the East end greatly improves service to that area.

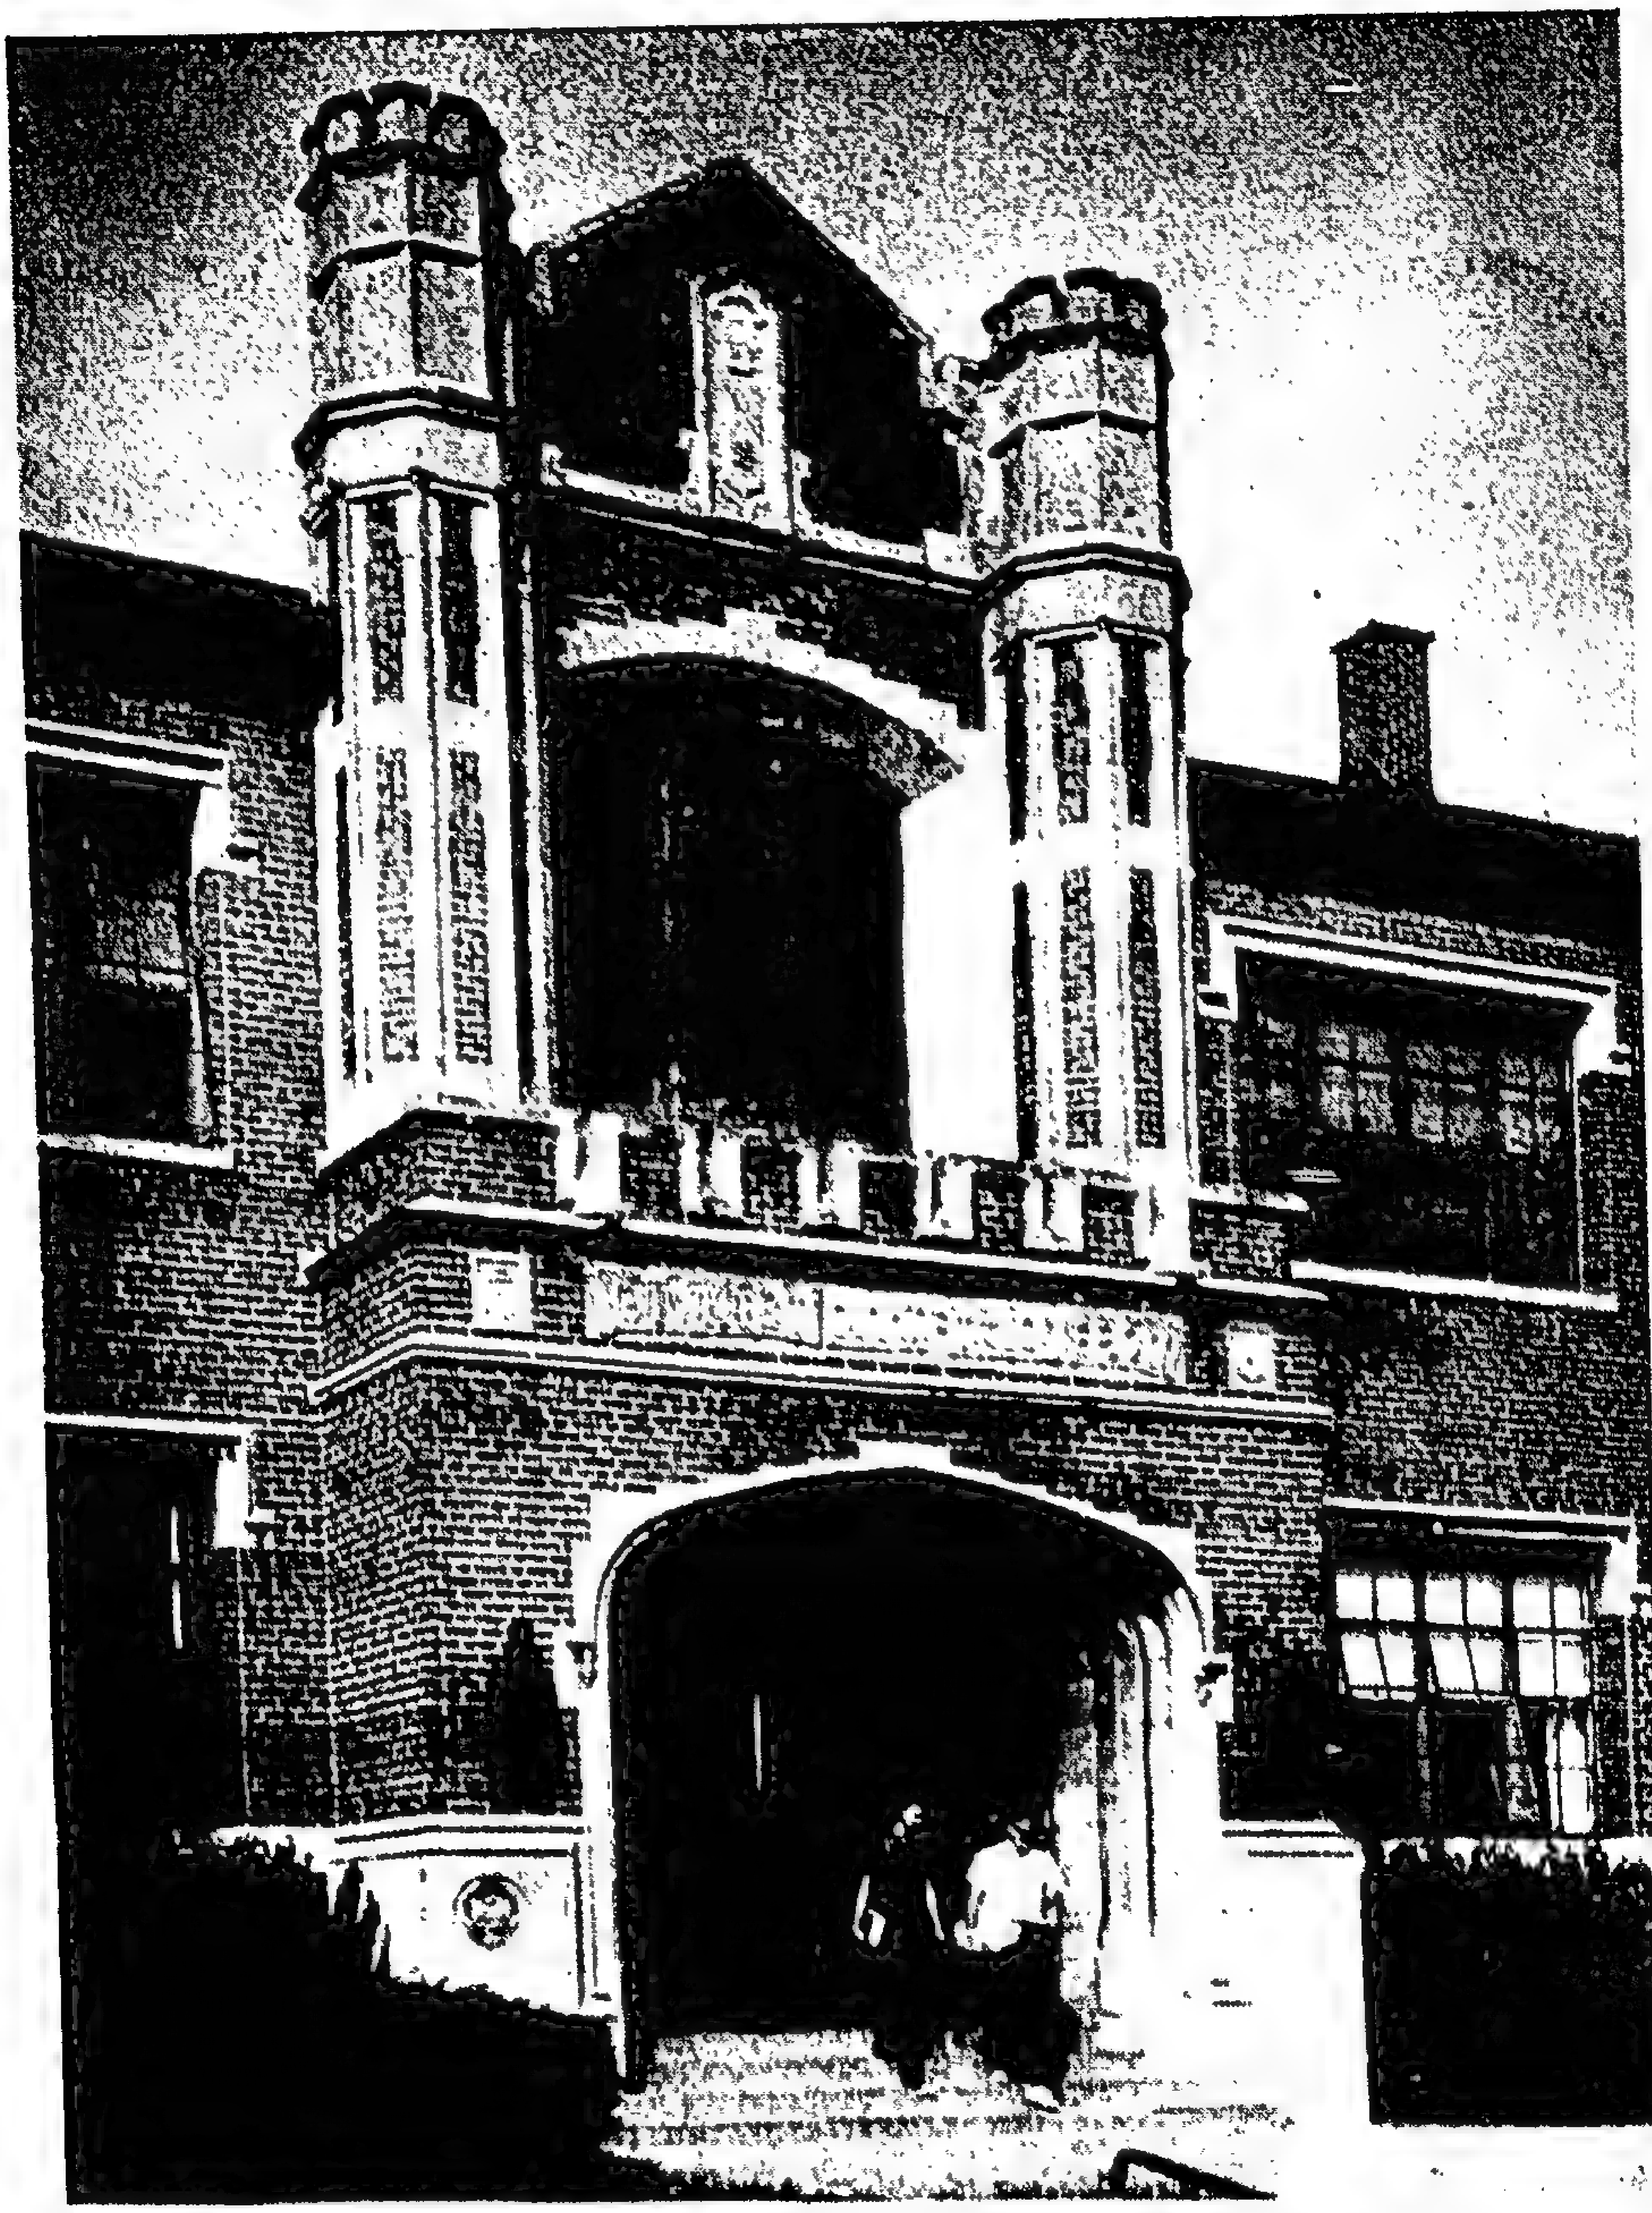


The city also has a large by-product coke plant manufacturing metallurgical and domestic coke and by-products, with a capacity of 600 tons per day.

There are 375 miles of streets in Terre Haute, 296.2 miles of which are paved with concrete, brick or asphalt, and 482.8 miles of concrete sidewalks.

Public Safety

To preserve order, the city has a police force of 111 men, two matrons and one traffic clerk, thoroughly drilled and under control and direction of the Board of Public Works and Safety consisting of three members appointed by the mayor.



The Terre Haute Fire Department is rated among the best in the country, and through its efficiency the community enjoys low insurance rates. It is housed in nine modern buildings. The force consists of 148 men, and its machinery comprises 11 pumpers, 2 city service trucks, and modern 100-foot American-LaFrance aerial truck and two 75-foot Maxim aerial trucks. The department has the Gamewell fire-alarm system. There are 1,740 fire hydrants in the city, 4 resuscitators and 1 emergency truck.

Education, Public Welfare, Civic Features, Etc.

Terre Haute has 34 elementary schools, six senior high schools, and nine junior high schools. Public schools are now organized on a county-wide basis, under school reorganization effective in 1961. There are also seven parochial schools, which include one high school.

Rose Polytechnic Institute, one of the nation's leading small private engineering colleges, with 500 students seeking degrees in chemical, electrical, mechanical and civil engineering, and mathematics and physics.

Also located in Terre Haute is Indiana State Teachers College, representing an investment of $20,000,000, and which has an enrollment of approximately 5,-400; Rose Polytechnic Institute, one of the best technical schools in the country, and St. Mary-of-the-Woods, a Roman Catholic college for young women. The last-mentioned school occupies a site of 1,200 acres and has an investment of $20,000,000 in its properties. Also located here are the Terre Haute Commercial College, Smart Appearance Beauty College, and Ernestine Myers School for Dancing

Guerin Hall, residence hall at St. Mary-of-the-Woods Catholic women's college near Terre Haute, with an enrollment over 600 students from over the United States and several foreign countries.

There are two large hospitals, with approximately equal capacity. They have a total of 550 beds and each hospital has a complete staff of physicians and surgeons and equipped for all kinds of work.

Outdoor recreation is offered by the municipality in two public golf courses, one an 18-hole course with a $50,000 clubhouse; the other a nine-hole course with locker-room facilities at the Memorial Stadium. This stadium was built at an initial cost of $400,000 in memory of those who lost their lives in World War I. It seats 15,000 people. It is lighted for night games. Three private country clubs maintain excellent golf courses and swimming pools for their members. An excellent swimming beach for use of the general public is a feature of the Izaak Walton League. The lake is well stocked with fish. Two downtown theatres offer the best in movies, and they may be used for legitimatic dramatic attractions. One community theatre, known as the Weldin Talley Memorial Playhouse, presents outstanding plays and films. There are three drive-in theatres.

Exclusive of secret orders, there are approximately 100 organizations listed as miscellaneous societies, clubs, etc. The fraternal societies are all represented, quite a number of them owning handsome homes, among which are the Masons, Odd Fellows, Knights of Pythias, Eagles, Elks, Knights of Columbus, Moose, Young Men's Christian Association and Young Women's Christian Association.

Industrial and Distribution Features

The importance of Terre Haute as a manufacturing center is evidenced by the fact that it has in successful operation 120 factories, representing many branches of industry. These factories give employment to 11,500 persons.

Terre Haute labor is of the very highest type, both skilled and unskilled, and the city is proud to invite industry to make an investigation of the facilities it has to offer.

Terre Haute has an active Chamber of Commerce to look after its commercial and industrial interests.

Factory sites on all railroads are available on favorable terms.

Terre Haute is admirably located for practically any type of distributing agency desiring to cover the territory of western Indiana and eastern Illinois, or, in fact, the Central West. Insofar as the industrial development of Terre Haute is concerned, it is Terre Haute's purpose to interest those manufacturing establishments that are equipped for economical and steady production. It is the Chamber's opinion that no sound manufacturing enterprise will endeavor to locate a main or branch plant without conducting a careful investigation of economic conditions. Terre Haute must have the types of industries to which its particular location and advantages are adapted. A city cannot help but prosper if its industries prosper. Terre Haute appreciates this mutual benefit and assures prospective industry of the fullest co-operation.

Features and Departments of a City Directory

Your new, improved City Directory is the most complete and comprehensive catalog ever published of the inhabitants, business concerns and institutions of your city. It is much more than just an alphabetical list of names and addresses.

Your City Directory Contains:

1 An *Alphabetical* list of names and addresses of every resident, business concern and institution, plus wife's name and if a widow the deceased husband's initial, and the occupations of all. Principal officers or owners and a description of businesses are included as well.

2 A *Householders' Directory* including a Street and Avenue Guide. This section lists every street and where intersecting streets appear. It lists numerically every location on each street, naming the householder or business at each number and whether the person is a homeowner or renter and if he has a telephone. Similar information is provided on office and public buildings and their occupants.

3 A *Classified Business Directory*—listing every business, classified as to type, and showing names and addresses. It also lists every profession, club, society and association, hospital and cemetery, labor organization, library, park and playground and school.

4 A *"Yellow Section" or Buyers' Guide,* where the advertiser may explain in greater detail the services or products he has to offer.

5 A *Statistical and Historical Story* of your city; plus miscellaneous other information.

A STATEMENT OF ADVERTISING PRINCIPLES

1. **Good Advertising** — aims to inform the consumer and help him to buy more intelligently.

2. **Good Advertising** — tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. **Good Advertising** — conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. **Good Advertising** — recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

ONE MOTHER TO ANOTHER:

Listen to mothers talk—they KNOW Borden!

They know that to keep a family healthy on a modest budget the milk to buy is Borden. It's jammed with the food values necessary for robust health!

It's a fact: A Quart of milk a day will supply up to one half the body's food needs at one quarter the average cost of other foods!
